HUNA TOTEM CORPORATION • JUNE 2013

Shareholders Elect New Board Member

Anthony Lindoff

Edward M. Davis

Wm. O. "Ozzie" Sheakley

Huna Totem Shareholders re-elected Ozzie Sheakley, Edward Davis and elected Anthony Lindoff to the Board of Directors at the 39th Annual Meeting in Hoonah. Their terms will expire in 2016. HTC would like to thank Tilli Abbott for her four terms of service on the Board of Directors and welcome newly elected Board Member, Anthony Lindoff. Anthony's Tlingit name is Kakootee and he is Kaagwaantaan. His grandparents are James and Elizabeth Lindoff.

He graduated from Hoonah High School in 1998 and he later obtained his Bachelor's Degree in International Business. In 2012, Anthony graduated from the Minority Business Executive Program at University of Washington and the First Nations' Futures Program at Stanford University. Before the election results were announced, HTC President and Chief Executive Officer, Lawrence Gaffaney, summarized HTC's 2012 corporate financial and business operations.

Vote Tally:

Anthony Lindoff 46,203

Edward M. Davis. 41,956

Wm. O. "Ozzie" Sheakley..... 40,225

Tilli Greenewald Abbott 31,363

James Jack, Sr. 21,848

Percentage of Shareholders who voted by proxy or in person: 73.95%

Thank you to all the Shareholders that voted!

Around the Point

The first ship of the 2013 season, Celebrity Cruise Lines' Century, arrived at ISP on May 7th following a busy period of preparation. Staff has been getting the site ready, performing all the tasks necessary to host our first visitors of the season....everything from shoveling snow and repairing boardwalks, to ordering and receiving thousands of pounds of product, to interviewing, hiring, and training our employees.

Speaking of training, ISP introduced a new site-wide hospitality training program in mid-April that will continue throughout the season. A 10-hour training program was developed, composed of three separate facets -- Tlingit Hospitality, FISH!, and FISH! into FUN. This training is proving to be a wonderful addition, for both all our staff, and our guests. Ask us about it when you visit the Point; we would enjoy telling you more about it.

Staff was excited and anxious to get started when the Century arrived on a gloriously sunny day that brought bubble-feeding humpback whales for everyone's entertainment. Earlier in the day, we hosted children from Hoonah City Schools for a preview of the Cultural Theater Performances; it was a great success and a lot of fun for all. Later in May, we welcomed back some of last year's student employees as well as some new ones, rounding out our staffing needs. The HTC Information Meeting was hosted at the Landing Zone on May 18th and it proved to be successful on many levels; especially enjoyable was the spontaneous singing and dancing.

Hoonah is Icy Strait Point, and Icy Strait Point is Hoonah! To show dedication and appreciation for the community, ISP sponsored its annual "Hoonah Day" event on May 31st. For the first time, Hoonah residents shared the day with visitors from the cruise ship Regatta. All restaurants were open and a local discount of 20% was offered at all ISP shopping venues. This year's celebration featured complimentary tours including the Whale & Marine Mammals Cruise, Forest & Nature Tram, and Spasski River Valley Wildlife & Bear Search. The world-famous ZipRider was also offered for \$10 per person along with a special raffle conducted aboard the Whale Cruise, with all proceeds going equally to Hoonah ANB Camp 12 and the Hoonah Senior Center. Over \$1,100 was raised! To top off an already fun-filled day with family and friends, Hoonah's very own community band gave an outstanding performance. Gunalchéesh, Hoonah!

June 8th was Neighbor's Day at Icy Strait Point. With the cruise ship Regatta already in port, a catamaran filled with our neighboring friends and family arrived from Juneau for a day of adventure, fun, and Tlingit hospitality. A great time was had by all, some even jumped ship and stayed a bit longer! ISP is always happy to welcome new friends to our shore, so check out our next discounted Neighbor's Day event scheduled for August 24th.

In addition to our regularly scheduled cruise ship visits on Mondays, Tuesdays, and some Wednesdays, ISP catered a Sealaska Meeting and hosted a local Kids' Fishing Derby at the beach. Let's hope the upcoming months continue with the same glorious weather we have experienced so far.

Information Meeting Has New Format

Huna Totem Corporation had another successful Informational meeting by introducing a new format. The format consisted of a layout which made it easier for shareholders to walk up to staff booths and become familiar with or ask questions of team members from Icy Strait Point, Huna Totem, local businesses, and partners. Juneau shareholders were able to attend for free via the Catamaran Huna Totem provided. Shareholders also had the opportunity to participate in a FAM tour which familiarizes them with how Icy Strait Point operates. Kenneth Grant presented a slide show of the Wrangell house. The meeting ended with singing, dancing, and laughter, many shareholders commented that it felt like coming home and they were very pleased with how the new format promoted communication between shareholders and staff. Shareholders that rode back to Juneau on the Catamaran were even greeted from a whale near the shore. HTC would like to thank all that participated and attended this meeting.

Land Selection

Marlene Johnson: There were copiousness amount of hours that went into selecting the land; it wasn't by any means easy work. When selecting the land there was a withdrawal limit so we had to stay under that, however we did get 230,040 acres. We weren't only selecting land for Huna Totem but for the City of Hoonah as well. We wanted to select land that had commercially harvestable trees and we also wanted to protect the waters around Hoonah. We hired a timber consultant that advised our selection to help choose quality timber. Looking back, it was strenuous work to have it all organized in about a year but we were fortunate to get it done.

40th Anniversary Picnic

The Huna Totem Corporation Board of Directors invites you to celebrate Huna Totem Corporation's 40th Anniversary with us! The celebration will take place in Hoonah, and will include:

- Plaque dedication at the original HTC Board meeting site
- Revealing the 40th Anniversary Commemorative Design
- Complimentary shareholder picnic
- ZipRider rides at discounted local rates
- Shore games
- ISP retail discount

The event will begin at 11:30 AM at the original HTC Board Meeting site (to the left of the Hoonah ANS hall). Shareholders outside of Hoonah may attend via catamaran from Juneau to Hoonah on July 27, 2013 at 7:30 AM. Shareholders, descendants, and spouses may ride the catamaran for free. Registration for the catamaran is required and seating is limited. Go to www.hunatotem.com and click on the registration link to register. Local rates apply for the ZipRider rides. We hope to see you there!

LAND SELECTION PROGRESS REPORT

Huna Totem President Frank See Sr. reports that the land selection is basically complete. All that needs to be done now is the preparation of a specific and legal description of the 23,040 acres that Huna Totem has selected. At present there are two projects going on that are part of the final selection process. Currently the Bureau of Land Management (BLM) is in the Hoonah area completing a 10 month boundary survey. With one more month to go, the BLM survey party is laying out the limits of Huna's land. The Mason and Assoc-

iates report (see Timber Corporation article, p. 4), also has a lot to do with the final selection, since land and timber almost the same thing in Southeast Alaska corporations. Their report, due in December, will affect the selection. Once the steps are completed, Huna Totem will be issued what is called an "interim title." This will give the corporation full title to the land. There are no reduced maps available at this time, but a preliminary map may be seen at the Huna Totem Corporation Building.

Taken from the 1975 Annual Report

FAQ: Who are the Denali Advisors? What do they do?

Denali Advisors is an Alaska Native controlled investment management firm based out of San Diego. Denali specializes in U.S. value equities and serves institutional public, corporate, and foundation clients. Denali has struggled with customer retention in recent years because of poor performance results stemming from volatile economic conditions. However, they continue to develop new models which they believe will attract new customers. In order to thwart further decline in net income, Denali has undertaken many steps to reduce costs within their office, such as: salary, staff reductions, and subleasing of their current office space and relocating to a lower cost office space. Huna Totem holds a 28% preferred ownership interest including a controlling seat on the three person board. Huna Totem attends all board meetings and acts as guidance to Denali management when necessary.

HTC & HIA Cooperation Results in Additional Funds for HTC Road Maintenance

HIA has a contract to perform under the Indian Reservation Roads (“IRR”) program on behalf of its tribal members with the Federal Highway Administration.

Under a MOA between HIA & HTC entered into last year, HTC will receive \$30,000 annually toward the cost of maintenance and improvement of certain designated public roads on our land which have been included in HIA’s tribal inventory and identified as priorities under HIA’s approved IRR Transportation Improvement Program.

This is a win-win for HIA and HTC. Expanding the number and miles of roads in its Tribal inventory has historically resulted in increased federal funding available to the Tribe under this program. HTC benefits from the receipt of funds for use in maintaining and improving our roads. HTC roads, included in HIA’s Tribal inventory, continue to belong to HTC. In joining together with HIA in this manner, HTC joins the City of Hoonah, and CBJ of Juneau which have also included some of their roads’ into Tribal inventories and received funding for road maintenance and improvements.

HTC Secures Funding from USDA for Expanded Silviculture Program

Earlier this month, HTC secured funding for the pre-commercial thinning of 446 acres of HTC land. Pre-commercial thinning improves the health of young forests and creates important habitat benefits, including providing forage for deer. HTC has renewed its contract with Sealaska to manage this work. Sealaska, in turn, will be working with HIA, which has recently initiated a training program for Tribal members and Hoonah residents so that they will be available to perform this work on HTC, Sealaska, and USFS land later this year.

Silviculture programs on our land like these are consistent with HTC’s Guiding Principles including *Maintain our land in perpetuity and Perpetuate our culture and land through prudent stewardship*. Working together with Sealaska and HIA to support training and employment programs is an example of another Guiding Principle; *Improve opportunity for all our people*.

NPS Receives no Responses Glacier Bay Lodge Concession

The current 10-year Glacier Bay Lodge joint concession contract between Aramark and Huna Totem Corporation is set to expire at the end of 2013. Glacier Bay National Park issued a prospectus requesting proposals for the next 10 year contract on January 3, 2013. Following the March 26th deadline, no proposals to operate the lodge had been submitted. The National Park Service continues to weigh options for the 2014 season and beyond, but no definitive solution has been identified as of yet. Huna Totem Corporation recognizes the importance of Glacier Bay Lodge as a hub for visitor activities, as well as for sharing cultural perspectives with visitors and continues a dialogue with the park during this important process. The intent is to assure that cultural interpretation in the park continues and grows. To date, Huna Totem Corporation has been providing cultural programming twice each week to visitors at Glacier Bay Lodge with the intent of expanding this presence to assure that all visitors to Sít’ Eeti Gheeyi are provided the opportunity to understand and appreciate the importance of the people, history, and culture of the Huna Tlingit and their ancestral homeland.

SST Increases Alternative Investment Allocation

Alternative investments are an investment vehicle other than the traditional stocks and bonds. They consist of products such as tangible assets (real estate, gold, commodities, etc), hedge funds, or private equity. Investing in these products is a way to further diversify the portfolio with the goal of improving performance and minimizing risk. Performance of alternative investments has a low correlation to traditional stocks or bonds. These investments are long-term in nature and relatively illiquid. There is limited historical data on some alternatives, so substantial research and analysis is done by management prior to any funding.

The Shareholder Settlement Trust has an alternative investment allocation of 20% that management has been funding over the past several years. Currently the Trust holds four alternative investments which comprises 19.30% of the portfolio: Management will continue to collaborate with the investment consultant to research new opportunities in order to achieve higher performance and greater portfolio diversification.

ISP Partners With HIA to Address Seasonal Housing Shortage & Allow More Shareholders to Return Home

Finding summer housing has long been a challenge for HTC shareholders interested in returning to Hoonah for the summer, whether to visit family, work at ISP etc. Later this month, this problem will become a bit less severe as a 14 bed bunkhouse will be available. HIA owns the bunkhouse which was sitting idle at the old Whitestone logging camp. Hoonah City Council approved its conditional use last month. Land has been cleared, foundation set, electrical dropped, and water and sewer hookup in place on an empty lot in the Mt. Fairweather Subdivision (HTC owned land, some of lots currently occupied by USFS housing under Long term lease between HTC as landowner & USFS). HTC will move the bunkhouse from the current location and install at the new site. HIA will manage the bunkhouse, making affordable housing available for seasonal staff working at ISP and others, providing HIA with a new revenue source

on what was previously an idle asset. HTC and HIA have also agreed to purchase an option which allows HTC to purchase bunkhouse for FMV in the future. Representing a great example of Woosh Jee Een, Tribe and Corporation pulling together for a community win-win.

Huna Totem Corporation Resets Debt Payments at Icy Strait Point

This reset drops annual debt payments by nearly \$10,000. In early 2013, interest rates on the long term debt loans were scheduled to default back to the original high rates established in the early 2000's. Management worked with the banks to lower rates to match current economic conditions. With a low blended rate of 2.89%, a greater portion of the annual debt payment will go towards lowering the remaining loan balance of \$9 million rather than interest expense.

Xuna K'aawu Radio

XKR is a Huna Totem radio broadcasting program aired over Hoonah's local radio waves on station 90.7 FM KHOO. The program runs every Thursday at 6:30 PM with encore broadcasts airing every other Thursday. Each program is recorded and uploaded to the corporate website (www.hunatotem.com) and a link is provided via the HTC Facebook page. This program brings interviews, announcements, news, events and updates, pertaining to Huna Totem, to the local community of Hoonah and listeners anywhere with internet capabilities. Programs range from a multitude of topics such as: Huna Totem Interns, Board of Director Elections, funding raised for the Hoonah Senior Center and Alaska Native Brotherhood, Icy Strait Point updates...to ISP ship schedules. A contest has recently been implemented into the broadcasts, Call in to Win. In these contests any listener who gathers clues (a word(s), phrase(s), obtained by listening to a single broadcast), has the opportunity to win a prize and be entered into a drawing for 15 thousand Alaska Airline miles. So far, the listening winners have been Amber White, Ivy Fulmer, and Paula Drake. Many more winners are just a phone call away and you can be one of them. Tune in to win!

Meet Our 2013 Interns

KATELYN SAVLAND

The Huna Totem Corporation is pleased to welcome Katelyn Savland as a second year intern. She is T'akdeintaan of the TaxHit (Snail House). Her Tlingit name is Kaach Woosh Kie Eee. Her mother's name is Bonnie Jo Borchick. Her grandmother is Freda Borchick and one of her great-aunts, Marlene Johnson, is the Chairman of the Huna Heritage Foundation Board of Trustees. Katelyn was born in Juneau, Alaska and is attending the University of Alaska Anchorage. This fall, she will continue her studies and as a fourth-year student in Clinical Psychology. She is working towards a Masters in Counseling Psychology. Katelyn had such a good experience last year that she wanted to intern a second season to enrich her overall internship experience with Huna Totem Corporation. This season, Katelyn is challenging herself even further, accepting more responsibility, taking greater initiative, expanding upon last year's experiences, continuing to have fun and build business relationships with the staff at Huna Totem Corporation.

The Huna Totem Corporation family is pleased to welcome Jessie Dominy to the 2012 intern team. Jessie is a college intern, attending the University of Alaska Juneau. Her Tlingit name is Laxha'aku'da.oo. She is Deisheetaan from TooK Hit (Needle Fish house). Her Mother's name is Lavern Wise (Cook), her grandfather's name is Donald Cook Senior, who was born in Hoonah, and her great-uncle is Ernest Hillman, Jr. She has been attending UAS since 2010 to further her academic knowledge. Her short-term goals are to earn a Bachelor's Degree in Anthropology and find a full-time job working in the southeast Alaska area. Her long-term goal is to learn the Tlingit language so she can one day teach it to the youth. Her current goals are to run for Student Body Vice President of UAS Juneau and to graduate from UAS with honors.

JESSIE DOMINY

RAE FULMER

The Huna Totem Corporation family is pleased to welcome 2012 summer high school intern, Rae Fulmer, to the team. Her Tlingit name is Shuteen and she is T'akdeintaan of the Yeil Kudee Hit. She just graduated from Juanita High School in Kirkland, Washington and she will be starting her freshman year at the University of Alaska Juneau this fall. Rae be taking the Tlingit language classes with the intent to be come a fluent speaker someday. She wanted to participate in Huna Totem Corporation's internship because it is a great opportunity for her to be exposed to different career options and learn more about her heritage.

GEOTECHNICAL DRILLING COMPLETED

In order to gain further confidence in design and cost estimates for the cruise ship pier, geotechnical drilling was undertaken beginning last month. After receiving the required permit from the U.S. Army Corps of Engineers in an unprecedented three weeks, Denali Drilling's barge arrived on site during last month's Shareholder Information meeting. A total of eight borings were done up to depths of 100 feet at the Inner Point Sophia and Port Frederick sites in order to better understand the composition of the seabed below the mud line. This is important in order to properly design and accurately budget for the pier pilings, e.g. how deep they must they be, will rock anchors be required, etc. Each hole took approximately 24 hours to drill, and the weather cooperated, so significant delays with stand-by costs were avoided. The drilling samples are now on their way to the lab for analysis which will available during July.

While it would have been possible to start construction without this information, saving some money in the short term, it will significantly reduce the level of contingencies currently included in cost estimates and has a number of economic benefits. Most importantly, it should allow for a much greater level of cost competitiveness (lower cost) from contractors should HTC move forward under our preferred design-build contract approach.

Denali drilling also drilled eight holes at the Shaman Point location which remains the City of Hoonah's choice for construction.

Under the terms of the Cost Share agreement between HTC and the City, we each paid for the direct costs of drilling our preferred site(s) and split the common costs associated with Denali's mobilization and demobilization.

SALMON PEOPLE'S HOUSE

ONE RESULT OF THE STRATEGIC PLANNING EXERCISE CONDUCTED BY THE BOARD OF DIRECTORS AND MANAGEMENT THIS YEAR WAS TO CONDUCT A MARKET TEST WITH CRUISE SHIP PASSENGERS VISITING ICY STRAIT POINT (ISP) THIS SEASON. WE ARE CALLING THIS NEW PROJECT THE SALMON PEOPLE'S HOUSE, AS WE CAN'T HELP BUT SEE A CORRELATION BETWEEN THE GUESTS VISITING EACH YEAR AND THE SALMON PEOPLE IN THE CREATION STORY. BOTH RETURN EACH YEAR TO SUSTAIN THE LIVELIHOOD OF THE PEOPLE AS WELL AS NOURISH AND ENRICH NOT ONLY THE LOCAL PEOPLE, BUT ALSO THE GUESTS. THE SALMON PEOPLE'S HOUSE PROGRAM IS DESIGNED TO PROVIDE VISITORS TO ICY STRAIT POINT WITH A DISTINCTIVE AND MEMORABLE EXPERIENCE, ALLOWING THEM TO CONNECT WITH SALMON PEOPLE'S HOUSE STORYTELLERS AND LEARN ABOUT THE HISTORY AND CULTURE OF ALASKA, ICY STRAIT POINT, AND THE HUNA PEOPLE. STORYTELLERS SHARE A GLIMPSE INTO LIFE IN HOONAH AND ALASKA BY SHARING THEIR PERSONAL STORIES, RELATING THE HISTORY OF THE CANNERY, AND WHAT MAKES THIS PLACE SO SPECIAL TO US.

MANY GUESTS ARE ENTHRALLED WITH LIFE IN ALASKA AND WANT TO LEARN MORE AFTER THEY RETURN HOME. THE SALMON PEOPLE'S HOUSE IS A MEANS FOR OUR GUESTS TO STAY CONNECTED WITH US AND LEARN MUCH MORE THAN THEY CAN ABSORB IN A ONE-DAY VISIT TO ISP. THE PROGRAM IS INTENDED TO PROVIDE MEMBERS WITH QUARTERLY RELEASES OF INTERACTIVE VIDEOS, ONLINE CONTESTS, AND PRODUCTS CENTERED ON CULTURE, NATURE, HISTORY, AND CULINARY THEMES. HOUSE MEMBERS ALSO RECEIVE A MEMBERSHIP TOKEN UPON JOINING THE HOUSE AND DISCOUNTS ON ICY STRAIT POINT MERCHANDISE AND SERVICES THAT CAN BE USED DURING THEIR VISIT TO ICY STRAIT POINT. AS PART OF THE PROGRAM, THE WOOD CHIP FIRE WAS REKINDLED AT ICY STRAIT POINT. AS GUESTS WALK UP THE DOCK, THEY ARE GREETED WITH A CEDAR WOOD CHIP, A SYMBOL OF OUR WELCOME AND AN INVITATION TO JOIN THE TRADITION OF MANY GUESTS BEFORE THEM BY BURNING THE WOOD CHIP IN OUR FIRE. MANY MAKE A WISH AND TOSS THEIR CHIP IN THE FIRE, LEAVING A PIECE OF THEMSELVES BEHIND IN THIS BEAUTIFUL PLACE. WE ARE IN THE EARLY PHASES OF THIS PROJECT, BUT ARE EXCITED TO SEE IT TAKING SHAPE AND ARE EXHILARATED WITH THE BRIGHT POTENTIAL WE ENVISION.

2013 Clan Workshop

"We were delighted to see so many new attendees from Sitka, Juneau and Hoonah this year!" --Marlene Johnson, HHF Board President

The 19th annual Clan Workshop was held in Hoonah for three days in April. Over 250 participants enjoyed the opening ceremonies complete with dance groups, regalia, and clan at.óowu. This year clan leaders Adam Greenwald, Ken Grant, Bill Wilson, Dennis Gray, and Ozzie Sheakley were joined by Clan leaders Herman Davis, George Bennett, Frank White, and Paul Marks all of whom provided knowledge and history regarding clan at.óowu and protocols for attendees.

The Clan Workshop is generously supported by Huna Totem Corporation, Hoonah Indian Association, Hoonah City Schools, and HTC shareholders.

Bartlett Cove Tribal House Documentation

HHF has begun documenting and archiving, from concept to completion, the photos, video, and interviews that have been conducted during the creation of the cultural elements for the Bartlett Cove Tribal House. Hoonah Indian Association and the National Park Service have partnered with HHF to catalog and transcribe interviews in order to fully document the project's timeline and creative process. Congratulations to carvers Gordon Greenwald, Owen James, and Herb Sheakley in completing the interior house screen and the T'akdeintaan, Chookaneidí, and Wooshkeetaan house posts. The Kaagwaantaan house post is scheduled to be completed by mid-summer. The Clan Workshop is generously supported by Huna Totem Corporation, Hoonah Indian Association, Hoonah City Schools, and HTC shareholders.

Yes, Your Vote Does Matter

Larry Gaffaney, Huna Totem Corporation
Chief Executive Officer and President

Huna Totem Corporation has what is known as a staggered Board. Huna Totem Corporation Bylaws proscribe a nine member Board, with Director terms of three years. The three-year terms are staggered so that each year, shareholders vote on three Director slots. With this schedule shareholders vote on all nine Board positions every three years. Most corporate Boards utilize this staggered term approach to provide stability and continuity on the Board and avoid the loss of experience and institutional knowledge that could occur if a large number of Board members elected to retire or were otherwise replaced during a single year. Staggered terms also facilitate the training of newly elected Board members, ensuring that experienced Directors are available to mentor younger, less experienced, newly elected Board members.

As I've discussed here previously, our shareholders historically vote in greater numbers than some other village and regional ANCSA corporations.

This is a testament to you're the commitment and involvement of Huna Totem Shareholders to their Corporation. During this most recent election, 74% of HTC shareholders voted. Shareholder voting has ranged from 64-78% over the past 5 years, typically increasing during years where there are independent candidates.

Two candidates ran independently for the Board this year, along with three current Directors whose terms were expiring. I'd like to thank and congratulate the two independent candidates for caring enough about their Corporation to throw their hat into the ring.

From time to time, I've heard shareholder concerns that discretionary voting provides the Board with too much power to prevent independent candidates from being elected to the Board and that Term Limits should be imposed to infuse the board with new blood. As this election demonstrated, independent candidates can and have been successful running against Management Slate candidates. Prior to Anthony Lindoff's election to the Board, as an independent candidate last week, current and past Board members, Harold Houston, Will Davis, Ed Davis, Tilli Abbot and Board Chair Russell Dick were all elected as independent candidates in 2009, 2006, 2001, 1993 & 2002. Since Huna Totem's inception, 40 years ago, 35 different individuals have been elected by shareholders and served on the Board.

Congratulations to Directors Sheakley, Davis and Lindoff on their election.

Gunalchéesh to Director Abbott for her four terms of service. Gunalchéesh to James Jack Sr. for running. Gunalchéesh to all the HTC shareholders who voted. Gunalchéesh to all those who have run, served, and voted over the past 40 years, helping to make your Corporation the success it is today.

Haa lEEK'u has yáagu yikt haa shukáadei yaan tukóox

Gunalchéesh,
Larry

News from the HHF Archive:

With funding from the National Park Service, HHF has been busy working on transcribing oral history interviews conducted by the National Park Service and HHF from 2000 to 2009. HTC shareholder, Irene Lampe, has been hired for ten weeks to help organize and transcribe media materials. Irene stated that she has enjoyed the transcription work and that "it's been a wonderful experience to listen to our elders as they speak about Tlingit history, Hoonah and Glacier Bay."

Excerpt from Lily White Interview – January 2009

"Our people witnessed the glacier went all the way across to Point Adolphus. They said it went right to the beach. So the people can't come in. They were stuck out there because the glacier went all the way. It was moving you know. There was nothing that could stop it."

Where Are They Now – Trinna Wick

My career journey started four years ago. I had been a waitress/bartender for a number of years, as well as a "Teacher" at a childcare center. My passion had always been health science and education, and after talking to about a dozen nurses about their experiences, I decided that nursing was definitely my field of choice.

I believe in empowering and liberating people through health education and teaching. It is for this reason I became a Registered Nurse. I am currently employed at the SEARHC Outpatient Department in Sitka, where I have the pleasure of providing services to our local and outreach community members.

I attended UAS in Sitka for the two years' worth of prerequisites, and then attended UAA via correspondence from

UAS. There are no words to describe the anguish that nursing school was. It was a bumpy road with literally a lot of blood, sweat, and tears, but here I am. I graduated with an Associate's Degree in Nursing in December 2012, became licensed in January 2013, and began my nursing career in February 2013!

Along with the sacrifices and support of my family was the financial support I received. Nursing school was expensive, to say the least and Huna Heritage Foundation was supportive and generous in their supplemental funding of my education. I would like to thank Kathryn Hurtley for her dedication to this program and the students. I am forever grateful to the Huna Heritage Trustees and Huna Totem Corporation. Gunalchéesh!

RETURN SERVICE REQUESTED

Cultural Interpretive Services is Now Alaska Native Voices

On May 1, 2013, the Cultural Interpretive Services department of Huna Totem Corporation changed its name and its mission. Now known as Alaska Native Voices, the program will continue to provide Native cultural perspectives to visitors in Glacier Bay aboard cruise ships as well as shore-side programs offered at the Glacier Bay Lodge. In addition to current programs, Alaska Native Voices will now offer cultural tourism consulting and training services to other Native organizations, cultural groups, and communities around the world. "We've spent many years growing and fine tuning the cultural tourism experience and its delivery to visitors. With this experience and the knowledge that cultural tourism is a growing trend in travel, we've realized the time is right to share our experience with others" said program Director, Mark McKernan. Using the lessons learned from Glacier Bay and Icy Strait Point, Alaska Native Voices will now offer their consulting services to those seeking to enter the cultural tourism market and provide guidance and insight for those interested in re-energizing their existing cultural tourism business.
